

Please find below regarding travel to the University of Arizona Steward Observatory CCD Laboratory. The University is undergoing major construction at this time and so most of the streets are congested. Parking is very hard to find. If you would like to have reserved parking, please feel free to contact me.

Directions from Airport

Travel north out of the airport on Tucson Blvd (which will become Benson Highway). Turn right on Kino Parkway going north, Kino Parkway become Campbell Avenue. Continue north on Campbell Avenue and turn left on Speedway Blvd. Turn left on Mountain Avenue. [Mountain Avenue is now a two-way street due to construction.] Turn left at the traffic light onto 2nd Street and stay to your right. The 2nd Street Parking Garage is on your right. Enter the parking garage and obtain a ticket. If you have reserved parking, still obtain a ticket at this entrance to raise the gate arm, but then use the intercom to confirm your arrival to the cashier. Before returning to your car, go to the cashier office and present your ticket and the validation coupon we will provide. Use the validated ticket from the cashier to raise the gate arm at the exit.

To get to the CCD Lab at the Steward Observatory walk east on 2nd Street and turn right on Cherry Avenue. The Steward Observatory is the second building on your right. Due to construction there is a fence around the east part of the building. You must walk around the fenced area and enter into the main entrance. Once you are in the building you can take the elevator or stairs down to the 1st floor. The CCD Lab Office is Room 162.

Please check out the University of Arizona web site on maps as well as other web sites for hotels, & maps @ the following addresses:
